

CV - DOLEV BASHI

Department of Physics | Bar-Ilan University | <https://dolevbas.github.io/> | dolev.bashi@biu.ac.il

Last update: 4-Oct-26

Research Interests

Exoplanets-- Binary stars-- Galactic archaeology-- Compact objects-- Space engineering

Appointments

Senior Lecture; Physics Department, Bar-Ilan University	2026-present
Research affiliate; Institute of Astronomy, University of Cambridge	
Postdoctoral researcher; Didier Queloz's group	2023-2026
Astrophysics group, Cavendish Laboratory, University of Cambridge	
Research associate; Tsevi Mazeh's group	2021 - 2023
School of Physics and Astronomy, Tel-Aviv University	

Education

Ph.D.: School of Geosciences, Tel-Aviv University; Advisor: Shay Zucker	2017 - 2022
M.Sc. (summa cum laude): Department of Geophysics & Planetary Sciences, Tel-Aviv University; Advisors: Ravit Helled, Shay Zucker	2015 - 2017
B.Sc.: School of Physics and Astronomy, Tel-Aviv University	2008 - 2011

Scholarships and Honors

Blavatnik Cambridge Fellowship	2023
The Akiva Bar-Nun scholarship for excellence	2019
Dean's scholarship for academic excellence	2017

Talks and Posters

<u>Talk</u> : Spectroscopic characterization of astrometric binaries, Line Integral Analysis (LIA) of Gaia RVS cross-correlation functions (DPAC Consortium Meeting, Geneva)	Sep 2026
<u>Invited Talk</u> : How does the Galactic Environment Shape Planet Populations? Implications for Ariel and atmospheric demographics (Ariel Open Conference, ESA ECSAT, Harwell Campus)	Mar 2026
<u>Invited Talk</u> : A Binary-Star Revolution in the Gaia Era (Ben-Gurion University)	Jan 2026
<u>Invited Talk</u> : A Binary-Star Revolution in the Gaia Era (Bar-Ilan University)	Dec 2025

<u>Talk</u> : Fewer Companions in the Crowd: The Low Close Binary Fraction in Globular Clusters from Gaia RVS (National Astronomy Meeting, Durham University)	Jul 2025
<u>Poster</u> : Identifying Compact Hierarchical Triples in Gaia Astrometric Binaries (EAS 2025, University College Cork)	Jun 2025
<u>Poster</u> : Different Planetary Eccentricity-period (PEP) Distributions of Small and Giant Planets (Exoplanets V, Leiden)	Jun 2024
<u>Talk</u> : Nanosatellites and the New Space revolution (Hills seminar series, University of Cambridge)	Feb 2024 Nov 2023
<u>Talk</u> : Exoplanets in the Galactic Context (ExoCam seminar, University of Cambridge)	
<u>Talk</u> : Tidal circularization of main-sequence stars (IoA colloquia, University of Cambridge)	Nov 2023
<u>Poster</u> : Searching for Exoplanets in Halo Stars (Blavatnik Cambridge Fellowships Reception, House of Lords, London)	Mar 2023
<u>Talk</u> : Tidal circularization of main-sequence stars (Wise 50, Mitzpe-Ramon, Israel)	Mar 2023
<u>Talk</u> : Gaia Spectroscopic Orbits Validation with external Radial Velocity Surveys (MW-Gaia WG2/1 Workshop, Naples)	Sep 2022
<u>Invited Talk</u> : Exoplanets in the Galactic context: Planet occurrence rates in the thin disk, thick disk, and stellar halo of Kepler stars (Weizmann Institute of Science)	Jan 2022
<u>Poster</u> : Quantifying the similarity of planetary system architectures (TESS Science Conference II - virtual)	Aug 2021
<u>Invited Talk</u> : Nanosatellites and the new space revolution (Technion, Haifa)	Feb 2021
<u>Poster</u> : Occurrence rates of small planets from HARPS: Focus on the Galactic context (Exoplanets III, Heidelberg - virtual)	Aug 2020
<u>Talk</u> : Small Planets in the galactic context- the era of <i>Gaia</i> (MW-Gaia WG3 Workshop, Porto)	Nov 2019
<u>Talk</u> : Small Planets in the galactic context (The Hebrew University of Jerusalem)	Jun 2019
<u>Invited Talk</u> : Two empirical regimes of the planetary mass-radius relation (University of Zurich, University of Bern)	Apr 2018

MENTORING

Part III projects (2 X M.Sc. students), University of Cambridge	2023-2024
---	-----------

Teaching

Teaching assistance Space Engineering course, Tel-Aviv University	2022
---	------

Observing Experience

Gemini MAROON-X Fast Turnaround (FT); 2h

2026

Las Cumbres Observatory (LCO) NRES; 10h

2022A

Las Cumbres Observatory (LCO) NRES; 10h
